## CERTIFICATES

**AGILE SOFTWARE DEVELOPMENT WITH  
SCRUM FROM AXON ACTIVE**  
07/2023

## LANGUAGES

### English

Able to communicate and read  
documentation thoroughly

## ABOUT ME

I'm a final year student from HCMCUTE, my specialization is Software Engineering. I'm currently have a high interest in Back End Development, which is the position that I want to have an internship in.

My desire is to be dedicated and bring profits to the company. In addition, I also have the opportunity to learn many new things from my instructors and partners.

I hope I can be applied into your company to have a chance to dedicate myself for the company and also an opportunity to practice in a new, open environment.

## PROJECTS

### Spa Booking Service With Smart Loyalty

8/2023 - 12/2023

Description: Website for booking spa service, selling product and customer service with smart loyalty.

<https://github.com/Tam-NhuBh/2023-UTE-GK-146-Spa-Booking-Service-with-smart-loyalty>

Server side technologies used: Nodejs, Express, REST API, JWT Web Token, MVC Architecture, MySQL, Paypal Sandbox API.

My contribution in the project:

- Implement the REST API for these features: Product Catalog Page, Product Details, Payment With Paypal, Search Engine.
- Integrate the APIs created into the Client interface and creating handles.
- Testing implemented features.
- Managing team output and project schedule.

### Thesis Management System

8/2023 - 12/2023

Description: Platform to manage students' thesis projects, tasks, and processes

<https://github.com/thien1103/New-Tech>

My contribution in this project: Fullstack Developer:

- design the front-end and create the ReactJS components with my design thinking about UI/UX.
- configure and implement CRUD with REST API for roles: Instructor, Student.
- Handling the exceptions and manage handlers on the client side.
- Integrate the APIs created into React pages.
